Weekly Observation

Index showing erratic movements with low turnover

After the previous week saw index pass one of the most bearish weeks in the last two years, index fell this week too, with loss of 194.36 points (-0.93%) and closed at ~5,965 levels. Three out of five trading days of this week closed red. The week opened with a massive 133 points (2.21%) loss, the falling trend slowed on the second day and on the third day, index had a much required turnaround with 79 point gain. The fourth day saw index go into the red again with a small 12 point fall and closed the week with a 29 point gain on the last trading day. The main opposition party's leader is facing a trial with judgment being declared on Thursday, after trading hours. As stakeholders are wary of potential political issues, market participation has been very slow, with only BDT 3.65 billion average turnover throughout the week (7.4% lower compared to already low avg. turnover level of previous week). No large cap sector posted significant weekly gains with Engineering, Cement and Food & Allied falling the highest with negative return of 3.13%, 2.64% and 2.07% respective losses. Average Trade Volume decreased by 4.6% whereas total number of trades also fell by 3.1%

The major talking point of the week was certainly the upcoming verdict. Among the economic issues, Exports brought home USD 3.41 billion in January -- the highest in five months -- thanks to a spike in shipments of garments, jute and jute goods and furniture, although export value was only 3.54% higher than a year earlier. Also, the government has suspended auctions of both treasury bills (T-bills) and bonds for the month of February to ensure proper cash management, officials said.

Top gaining stocks of the week were DULAMIACOT (34.73%), SONARGAON (21.13%) and USMANIAGL (16.18%). Conversely, top losing stocks were GBBPOWER (-12.07%), OIMEX (-11.76%) and BBSCABLES (-10.94%). LANKABAFIN topped the weekly turnover list followed by BXPHERMA SQRPHARMA, GP and MONNOCERA.
