Weekly Observation

Index loses 42.8 points over the week amidst bearish trend and low turnover

The benchmark DSEX index lost ~42.8 points, a 0.73% loss over the last trading week. The market has been passing through a bearish trend with low turnover levels, which has persisted this week as well. Although three of the five trading days ended in positive, the losses of the two trading days ending in red far outweighed the gains. The index opened the week with a small ~12 point gain, followed by a ~48 point loss. The pattern again repeated with ~12 point gain and ~25 point loss during the third and fourth trading days. The final day saw index close flat with a ~5 point gain, taking index to 5,827.99. Market participation has remained low with BDT 3.72 billion average turnover throughout the week (0.5% lower compared to avg. turnover of previous week). Among the major market sectors, Telecommunication and Engineering increased 1.21% and 0.73% whereas Bank, Cement and Food & Allied sectors registered the highest losses with -2.29%, -1.86% and -1.42% index returns respectively. Similar to last week, sharp movements in Food & Allied and Cement sectors have been caused by sharp movement in two large stocks, BATBC and LHCL respectively. Average Trade Volume increased by 9.0% whereas total number of trades increased by 9.2%, the increased volume despite similar turnover levels indicate prevalence of stocks with lower price per unit. 152 stocks gave positive returns over the week while 149 stocks were in the red and market cap of 98 stocks remained the same. DSES was up by 0.56 points (+0.04%) and DS30 index was down by 25.14 points (-1.16%).

Among the economic issues, National Economic Council (NEC) approved the BDT 1.58 trillion Revised Annual Development Programme (RADP) for the current fiscal year (FY18) downsizing the original ADP of BDT 1.64 trillion. In January, private sector credit growth stood at 18.36%, up from 18.13% the previous month. The country's overall imports grew by 11.66% in the first seven months of the current fiscal year (FY), 2017-18, mainly due to higher import of food grains and fuel oils. Mobile account users have fallen by a staggering one crore in just six months after the central bank cracked down on illegal accounts by strengthening compliance.

Top gaining stocks of the week were MIDASFIN (+13.62%), OIMEX (+12.03%) and RAHIMTEXT (+10.64%). Conversely, top losing stocks were NCCBLMF1 (-12.90%), PRIMEINSUR (-11.22%), and DULAMIACOT (-10.61%). MONNOCERA topped the weekly turnover list followed by NTLTUBES, IBNSINA, IFADAUTOS, NAHEEACP, and LANKABAFIN.
